

DISINFECTION SERVICE

For COVID-19, other common viruses, bacteria, and more

Your business runs on people – employees and customers. Nothing is more important than knowing they are safe. Viruses, bacteria, fungi, and mold pose a constant, invisible threat to that safety. With Rentokil's Disinfection Service, get the peace of mind that you need to know both are safe from these unseen dangers.

CRITICAL DISINFECTION

- Developed to help you maintain a high level of hygiene on your premises
- Highly-trained Specialists use ultra-low volume (ULV) disinfection fogging
- Disinfection formula is environmentally friendly, hypo-allergenic & non-harmful
- No harsh fumes or visible residue
- Get back to business in as little as 30 minutes following treatment
- Rapid response service
- This precautionary service is designed for businesses that have not had a confirmed case of COVID-19 and is conducted where there are no suspected cases, mold issues, or other major contamination incidents underway at a site

WHAT IS ULV DISINFECTION FOGGING?

- Uses ultra-low volume foggers to disperse disinfectant
- Creates extremely small disinfectant droplets
- Treats contact surfaces and inaccessible areas
- Treats large area in short time-span

EFFECTIVE ON CRITICAL HARD SURFACES:

- | | |
|----------------|-----------------------|
